

**Ryan Chouest PowerPoint Bullets for 6/19/10  
Operational Period 6/20/2010 Sampling Period**

- The Ryan Chouest arrived offshore of Pensacola. The new pump casting assembly was tested and has been in operation since.
- Fluorometer readings show medium to low concentrations for this part of the transect. The Chelsea fluorometer measurements show the lowest values of the three sensors with some variability in the westernmost segment.
- Further conditioning of the hose is required at full extension to remove all remaining contaminants before routine operations occur.
